# 1. Governance, strategy, participation

# Role veřejné správy

Jedním z úkolu veřejné správy je i řešení otázek mobility. Nabízíme několik rad a doporučení, jak na to.

### 2030 - Leipzig grows sustainably!

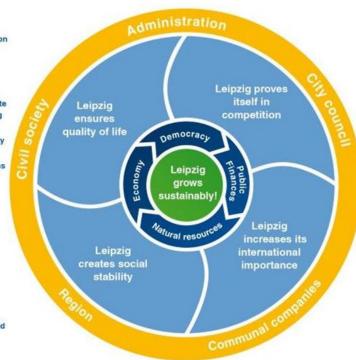

Overarching Set of Goals

### Leipzig ensures quality of life:

- → Balance between densification and open space
- → Quality of public space and built environment
- → Sustainable mobility
- → Preventive strategy for climate protection and energy saving
- → Maintenance and improvement of environmental quality
- → District-related supply of cultural and sportive offers as well as green spaces

## Leipzig creates social stability:

- → Equal opportunities in an inclusive city
- → Collaborative district development
- → Affordable housing
- → Future-oriented offers of child care and education
- → Lifelong learning
- → Secure and safe city

### Leipzig proves itself in competition:

- → Positive conditions for qualified jobs
- → Attractive environment for innovation, start-ups and skilled labour
- → Diverse and resilient economic structures
- → Preventive strategies and municipal policy for real estate management
- → Powerful technical infra
- → Interconnection among education, research and economy

## Leipzig increases its international importance

- → Open-minded / cosmopolitan city
- → Diverse, vibrant cultural and sports scenes
- → Interdisciplinary sciences and excellent research
- → Attractive location for tourism and conferences
- → Image defining large-scale events
- → Global thinking, responsible local action

# 2. Human dimension

# Mobilita, člověk a jeho potřeby

Víme, že stejně každý jedná tak, aby z toho měl sám prospěch. Co je tedy dobré pro člověka v oblasti dopravy a mobility?

# 3. Active mobility, public space, traffic regulation, parking policy

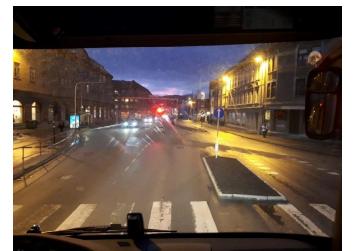

# Design ulice a veřejný prostor

"Nikdo nevěděl, že to jak stavíme naše města, ovlivňuje životy lidí a náš životní styl" jan Gehl, dánský architekt

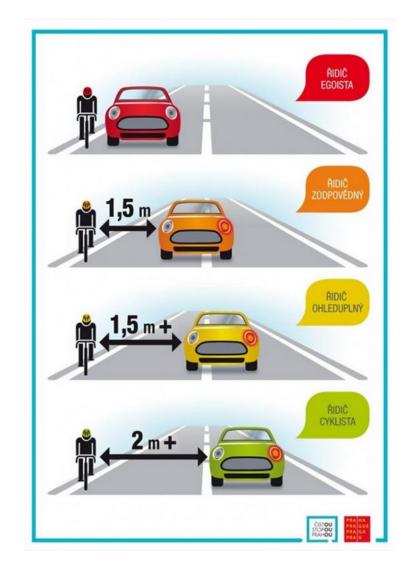

# 4. Safety with regard to children and seniors

# 5. Multimodality and public transport

### Který z těchto regionů je bohatý?

6. Innovative solutions and smart mobility

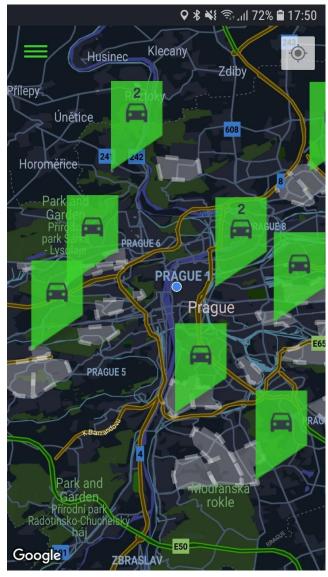

# 6. Innovative solutions and

# - MOBILITY PLAYGROUND

smart mobility

- STUDENTS CREATE AND RUN COMMUNITY CAR SHARING SYSTEM
  - in-house developed HW & SW
  - cooperation between three universities in Prague
  - supported by Škoda Auto & Škoda Auto Digilab
- RESEARCH TOOL FOR DESIGN OF OPTIMAL INTER-MODAL MOBILITY
- EDUCATIONAL TOOL FOR "BEGINNERS IN MOBILITY"
- STARTER PACKAGE FOR NEW UNIVERSITIES READY IN THE END OF 2019
  - minimal package with basic functionalities to enhance the system by locally specific needs for universities abroad
- MAJOR CHALLENGE CONVINCE PRAGUE REPRESENTATIVES BY PROJECT BENEFITS

# **ACTIVITY 5. Education and training activities**

Seminars, workshops, conferences

Common sharing of activities and events: https://www.dobramesta.cz/akce-prehled.

# **ACTIVITY 5. Education and training activities**

# **MOBILITY WORKSHOP**

BUSINESS

- brainstorming focused on challenge definition
- characterization of short-, mid- and long-term challenges
- definition of cooperative Ph.D. topics
- coordination of research projects

# WINTER WORKSHOP

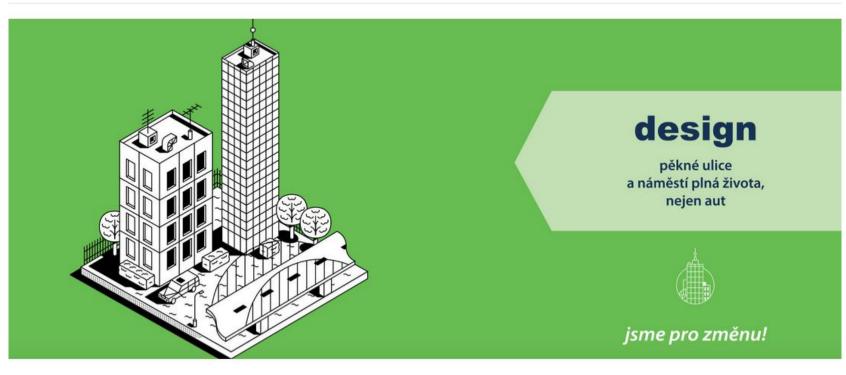

- preliminary solutions exchange for mid- and longterm challenges
- presentation of realized projects
- knowledge exchange
- real education

# **ACTIVITY 6. Coordination of marketing activities**
